ready-to-use *when you need them*

**BioPharma**  
Solutions

LIQUID

READY-TO-USE, TERMINALLY STERILIZED PREMIX SYSTEMS

One Step Drug Administration

### INTRA VIA

Baxter's non-PVC container system with distribution in both US and global markets

### VIA FLO

Baxter's non-PVC container system widely used in EU

### VIA FLEX

Baxter's traditional container system in wide use globally

## Why Premix?

- A **safer** drug delivery system: **fewer steps to administer**, **standardized concentration**, and **less risk for contamination**
- Can **extend your product's lifecycle** and support its market position by creating **lasting differentiation** and a **profitable pricing strategy**
- Convenience** that allows for your drug to be **ready at the moment it is needed**, leading to **preference** for your product which **builds loyalty and growth!**

**Baxter offers container types with a wide range of technical specifications, and corresponding production sites able to address most markets:**

	SIZES (mL)							MARKETS				PRODUCT FORMS		OVERPOUCH	BASE SOLUTIONS	SMALL MOLECULES	BIOLOGICS	ANTIBIOTICS
