BioPharma
Solutions

Maximize your molecule's full potential

More than
85
years
of Baxter
parenteral
innovation and
expertise

Formulation challenges. Clinical supply hurdles. Limited manufacturing capability or capacity. Market fluctuations and demand surges. Lifecycle management. Risk mitigation. Patent expiry concerns.

At BioPharma Solutions, a business unit of Baxter, we know the high-stakes challenges you face in today's complex parenteral marketplace — and how the work we do is vital to the patients you serve.

That's why we work closely with you at every step to help you achieve your molecule's full potential and your commercialization objectives — building on over 85 years of Baxter innovation, expertise, and specialization in parenterals.

Diverse drug and delivery systems experience

Meeting the challenges of complex and traditional manufacturing

As a parenterals specialist, BioPharma Solutions offers a variety of contract manufacturing solutions and injectable delivery systems across multiple drug categories.

Sterile Manufacturing Solutions	Drug Categories	Proprietary Parenteral Delivery Systems
Prefilled Syringes Liquid Vials Lyophilized Vials Cartridges Diluents for Reconstitution Powder Filled Vials Sterile Crystallization	Small Molecules Biologics -Monoclonal Antibodies -Therapeutic Proteins Vaccines -Adjuvant -Conjugate Cytotoxics Antibody-Drug Conjugates (ADCs) Highly Potent Compounds Cephalosporins / Penicillins	Frozen Premix System Liquid Premix System

Nearly
100
million units
manufactured
each year

Scientific and manufacturing excellence

Science innovation meets business expertise

Parenteral therapeutics present diverse scientific and technical challenges. We apply our expertise in process and formulation development, technology transfer, and parenteral manufacturing to maximize quality, stability, and speed-to-market.

Over

Commitment to collaboration

Building the strong alliances critical to parenteral success

We staff every project with a dedicated team of cross-functional experts and apply integrated principles of project management, customer service, and Lean Manufacturing to simplify bringing your product to market.

Customized support services

Delivering ongoing value throughout the process

BioPharma Solutions offers more than just fill finish of sterile injectables. Strong organizational capabilities and broad parenteral resources help us align with your company's commercialization objectives and our shared goal of moving patient care forward.

Global regulatory support

Navigating the regulatory environment can be complex. Our regulatory support services can help:

- Streamline your regulatory filing process
- Support your regulatory strategy
- Facilitate your regulatory submissions around the globe

Quality systems

Our reputation is built on:

- High-quality products manufactured in a cGMP environment
- ISO 14001-certified manufacturing practices
- Experienced quality experts who help ensure compliance in every facility

Worldwide manufacturing expertise

Leveraging the power of Baxter's global presence

The strength of Baxter's global network lies in efficient, quality cGMP manufacturing — enabling BioPharma Solutions to deliver cost-effective results built on best practices and operational excellence.

- **A leader in sterile contract manufacturing**, our facility in Bloomington, Indiana, USA serves client needs from clinical development through commercial launch.
- **A world-class manufacturer of oncology products**, our Halle/Westfalen, Germany facility offers dedicated clinical through commercial production.
- **A best-in-class aseptic solution manufacturer**, our Round Lake, Illinois, USA facility produces ready-to-use premixed drugs in proprietary bags.
- **An industry-leading resource for parenteral product formulation, process, and analytical development**, our Lyophilization Center of Excellence is staffed with scientists who can assist with modifications and formulas to help maximize the potential of your lyophilized products.

Manufacturing
for more than

120
countries
worldwide

Ultimately, our goal is to make you feel confident and secure in choosing **BioPharma Solutions** as your CMO — assisting you to avoid the unexpected and guiding you through marketplace complexities to help maximize your molecule's full potential.
